WINNER OF THE 2024 PEZCOLLER- AACR AWARD FOR CANCER RESEARCH

LECTURE

Titia de LANGE

Rockefeller University, New York

Prof. De Lange was awarded the 2024 Pezcoller-AACR award for discovering the molecular mechanisms by which telomeres protect chromosome ends, characterizing the function of the shelterin protein complex, and demonstrating how loss of telomere protection results in aberrant genomic integrity and tumorigenesis.

Thursday, MAY 9, at 12.00

***Aula Magna
Polo Biologico «A. Vallisneri»***

You are cordially invited
