

Matthew Vander Heiden

Koch Institute for Integrative Cancer Research at MIT – Boston

Understanding metabolic limitations in cancer

Giovanna Pontarin - Dipartimento di Biologia - UniPD

Decoding the role of glutaminolysis
in developmental and tumour angiogenesis

Patrizia Romani – Dipartimento di Medicina Molecolare - UniPD

Extracellular matrix mechanical cues regulate
lipid metabolism through Lipin-1 and SREBP

Organisers: Sirio Dupont, Graziano Martello

Aula Magna @Vallisneri –
Via Ugo Bassi 58/B, Padova
20 March 2019, at 11:00

Host Institution: Department of Molecular
Medicine – DMM – University of Padua
